

ACCESSORY

INTEGRATED DIGITAL DISPLAY

for **MAURER** Pyrometers

Series KTRD 1000, KTRD 2000 and QKTRD 1000

Image of integrated digital display in a pyrometer of series QKTRD 1000

This display is integrated into the backside of the pyrometer and helps the user read the current measured temperature quite easily without the need of an additional display unit. It does not limit the access of the other functions on the backside.

Technical Data

Display	LED
Max. number of digits	4
Heights of segments	10 mm
Restrictions	Analogue output: 4 – 20 mA is not possible, only 0 – 20 mA
